

# Expediting Your Permit

Based on the city's response times and the scope to build your space, we highly recommend hiring a permit expeditor in order to fast-track the process and ensure you open as soon as possible.

*Please note that you are not required to work with this vendor, and Brixmor is not responsible for any delays that may result when using a permit expeditor.*

## RECOMMENDED EXPEDITER

**KEVIN KOHAN**  
PRINCIPAL PLANNER  
ELEVATED ENTITLEMENTS

"A professional planning team will have the experience and the network to help you get your project moving along quickly and within budget.

*The right planning team will have good working relationships with planners on the state, county, city, and local levels, which will help you get the approval you need more quickly. They will also be able to negotiate issues on your behalf, eliminating the need to submit additional requests to the local jurisdiction."*
